

Start

```
graph TD; Start([Start]) --> CHx[CHx]; CHx -.- CHn[CHn]; CHn --> Stop([Stop]);
```

A flowchart illustrating a process flow. It begins with an oval node labeled 'Start'. A solid black arrow points down from 'Start' to a blue rectangular node labeled 'CHx'. From 'CHx', a dashed gray arrow points down to another blue rectangular node labeled 'CHn'. Finally, a solid black arrow points down from 'CHn' to an oval node labeled 'Stop'.
